### **WHMA/Global Electronics Association**

Visit the WHMA/Global Electronics Association Booth to learn more about WHMA membership and the newly released IPC/WHMA-A-620 – Revision F.

IPC/WHMA-A-620 is the only industry-consensus standard for Requirements and Acceptance of Cable and Wire Harness Assemblies. IPC/WHMA-A-620F describes materials, methods, tests and acceptance criteria for producing crimped, mechanically secured and soldered interconnections and the related assembly activities associated with cable and harness assemblies.

### What's New in Revision F

- Updates to Section 19.0 (first in over 20 years)
- Clearer wire, lead and conductor terminology
- Removal of redundant requirements
- Industry-driven clarifications
- Added cable lacing fasteners to securing requirements

### **evolve by Global Electronics Association**

Sustainability Reshaping Electronics: evolve is here to help our industry achieve progress in parallel with protecting the planet. Evolve with us and join the industry-wide movement driving innovation, responsibility, and long-term success. From engineers to recyclers, designers to manufacturers, we need an all-of-industry approach to accelerate sustainability through evolution.
